What is Fast CAT?

Fast CAT is a timed straight 100-yard dash for dogs. Dogs are held at the start line and the coursing lure is activated prompting the dog to follow chasing it to the finish line and into a catch pen. The course is completely fenced and dogs are run individually. Dogs are timed when they complete the 100-yard dash. The time is converted to Miles Per Hour (MPH).

FORMULA: 204.545 / RUN TIME = MPH

Based on the dog's size at the withers, a handicap is applied and points are earned:

- 18" or greater = Handicap is 1.0
- 12" up to less than 18" = Handicap is 1.5.
- Below 12" = Handicap is 2.0.

MPH X HANDICAP = POINTS (ROUNDED TO NEAREST 0.01)

Titles:

Titles are earned at specific point levels and the highest suffix may appear after the dog's name:

- BCAT = 150 points
- DCAT = 500 points
- FCAT = 1,000 points
- FCAT# = each additional 500 points Lure Course

Fast CAT Lure Course Method:

An electronic timing system will be used. An electric, continuous loop, plastic strip lure machine will be used, which means a continuous line passes through the course and the catch pen and then loops back to the start line on the outside of the fenced in area. Electronic timers are used at the start and finish lines. Everyone should stay well back (20') from the course and the lure line to avoid interfering with the lure line and from distracting the participants.

Notice to All Exhibitors:

All exhibitors are responsible for cleaning up after their dogs on the motel, RV and trial grounds. Motels require that dogs be crated when unattended. Any damages to motels, RV sites or the trial site can result in disciplinary action by the Event Committee. It is expected that exhibitors will clean up immediately after their own dogs and strongly encourage others to do the same. All owners/exhibitors should be aware that the entire hotel grounds and RV sites are considered within the trial grounds. You will be responsible for all damage to your room/site and may be subject to disciplinary action in accordance with the rules of the AKC. Any abuse of the grounds will be brought to the attention of the trial-giving club and its Event Committee. Any exhibitor's entries may be refused for previous misuse of the hotel or RV facilities. This is an AKC supported measure.

Test Information:

Dogs should be warmed up before and cooled down after running.

- ALL DOGS RUN AT OWNER'S SOLE RISK

Listen to the huntmaster and follow their instructions promptly and swiftly.

A penalty of up to \$5.00 may be assessed for any dog causing an excessive delay of the event if it cannot be recalled or retrieved from the field, and/or in the event of excessive delay, the dog may be excused for the rest of the event.
- ❖ Dogs that delay the event because they cannot be recalled by their owners may be refused entry at future events.
- ❖ Any dog that gets loose on the field while another dog is running, the owner will be assessed a \$5.00 penalty fee. If a fight ensues because of the loose dog, the owner of the loose dog will be requested to retrieve their dog and a disqualification form will be filled out and possibility of a bench committee can be called for disciplinary measures.
- ❖ Exhibitors should follow their veterinarian's recommendations to assure their dogs are free of internal and external parasites, any communicable diseases and have appropriate vaccinations. If your dog is sick, do not bring them to the field.
